Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Barry Swanson on 12/07/05.

The application has been amended as follows:

In the Specification, on page 5, line 4 of section [0030], please add "In certain embodiments the particles have an MMAD of from about 0.2 to about 3 microns."

In claims 25 and 32, change "0.2" to --0.1--.

In claims 26 and 33 add the term "about" before "0.2" and "3".

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art teaches treating insomnia in patients by administering drugs such as zaleplon, zolpidem and zopiclone. The novelty in the instant Application lies within the method of making and administering the condensate aerosols of such drugs. The prior art does not teach producing a condensate by vaporizing the drug particles. Also such condensates provide a degradation product of less than 10% for the particles, an MMAD of less than 5 micron and a peak plasma drug concentration that is reached in less than 0.1 hours.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mina Haghighatian whose telephone number is 571-272-0615. The examiner can normally be reached on core office hours.

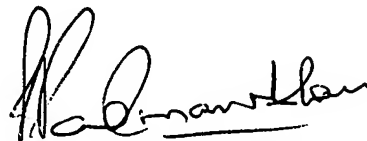

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary L. Kunz can be reached on 571-272-0887. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

STEEN PADMANABHAN
SUPERVISORY PATENT EXAMINER

Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner telephoned Mr. Swanson to discuss a potential new matter issue with the specification and certain claims. It was suggested to Mr. Swanson to change the particle size range of claims 25 and 32 to read "0.1 to 5" and adding the term "about" before "0.2" and "3" in claims 26 and 33. Specification was suggested to be amended to include the same range also. Mr. Swanson agreed to all the suggestions and it was decided to have the amendments done by an Examiner's amendment (attached).
